

Technical data sheet

Dosing pump DSP 9619

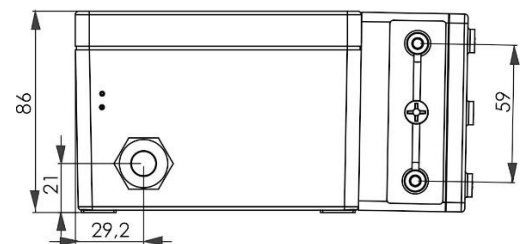

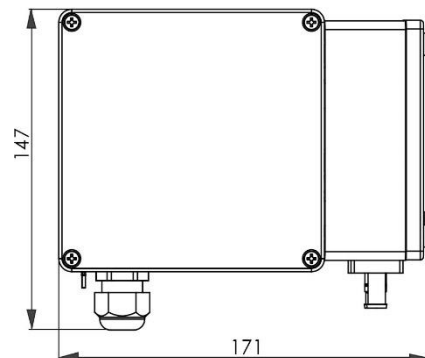

This strong and durable dosing pump of the Heavy Duty series works and doses solidly, accurately and reliably.

Double ball bearing gearbox and large torque reserves are further special features of this pump.

Performance data	Flow rate:	50 ... 1000 ml/min
	Duty cycle:	50%
	Max. Pressure:	0,5 bar
	Suction height:	1,8 m
Configuration	On the device:	Potentiometer
Electrical data	Operating voltage:	100 ... 230 V AC
	Frequency:	50 / 60 Hz
	Input power:	30 VA
	Protection class:	IP 65
Mechanical data	Dimensions:	171 x 147 x 86 mm
	Weight:	1,65 kg
	Connection hose (inØ/outØ):	6/- mm
Ambient conditions	Ambient temperature range:	+10 ... +45 °C
	Environmental stress:	Conforms to DIN EN 60068-2-38
